Why Stay Informed on Standards Revisions?

• It is the program’s obligation to stay up-to-date on the Standards for compliance.

• A program’s compliance is evaluated with Accreditation Standards (“must” statements) that have been adopted and implemented at the time of the site visit.

• Programs may need to modify the self-study if standards have been implemented during the self-study development process.
A Reminder on the Structure of Standards

• The **MUST** statement is the requirement and mandatory for compliance.
• The **SHOULD** statement is a method to achieve the “must” but not mandatory.
• The **INTENT** statement provides clarification on the requirement; the reason and purpose, not exclusive or exhaustive.
• The **EXAMPLES OF EVIDENCE** are ways to document compliance, may include these items or other methods of documentation.
How to Stay Informed on Standards Revisions

• CODA helps you stay current by emailing you notifications [e.g., “CODA Communicator,” “CODA Alert,” emails to a specific set(s) of program directors, communities of interest]  
  – Note that “opt out” will not receive CODA communications

• CODA conducts workshops and posts materials to its website

• Please access the CODA website periodically
Frequency of Citings

• Developed annually, each summer.
• Compilation report of all standards cited during the period of implementation of Standards.
• Reference for program, especially at time of site visit.

*Review Guidelines
Reminder About Privacy and Data Security…

• The program’s documentation for CODA (self-study, application, or reports to CODA, for example) must NOT contain any sensitive personally identifiable information ("Sensitive Personal Information" or "SPI") as outlined in “Privacy and Data Security Requirements for Institutions”. Similarly, such documentation must not contain any identifiable Protected Health Information ("PHI"); therefore, no “patient identifiers” may be included. This applies whether or not the program is required to comply with HIPAA.

• Before sending documents to CODA, appropriately redact all SPI and all PHI, including all patient identifiers such that the SPI/PHI and patient identifiers cannot be read or otherwise reconstructed.
  – Covering data with ink is not an appropriate means of removing data from a hard copy document and may sometimes be viewable when such documents are scanned to an electronic format.
Reminder About Privacy and Data Security…

• If PHI and/or SPI is found, or if it is inappropriately or inadequately redacted:
  – The institution’s CEO, CAO, and HIPAA compliance officer, along with the program director, is notified of the CODA violation
  – The program is asked to send another electronic version of the self-study or report, minus the PHI or SPI
  – **Program will be assessed administrative fee of $4,000**

Note: The most frequent finding of potential PHI relates to **dates that may be associated with a patient**. **Remove all dates** from your documents.
Expectations Related to Privacy & Data Security

• In accordance with the Business Associate Agreement (BAA) between CODA and your institution, the following is expected:
  – SPI and PHI will only be viewed on-site (in the program’s facility), and only to the extent necessary to conduct the work of CODA

• Signed Verification Page:
  – Serves as an attestation that the report/self-study/document submitted to CODA contains no prohibited Sensitive Personal Information (SPI) or Protected Health Information (PHI)
Policy and Procedure Revisions

• Confidentiality Policy
  – Noting that the CEO, CAO/Dean/Academic Dean, and Program Director are the only points of contact with whom CODA staff will communicate.

• Progress Reports
  – Identification of new deficiencies during the reporting time period will not result in a modification of the specified deadline for compliance with prior deficiencies.
