CONSIDERATION OF MATTERS RELATED TO ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS EDUCATION

Informational Report on Orthodontics and Dentofacial Orthopedics Programs (Residency and Fellowship) Annual Survey Curriculum Data (p. 1100): At its Winter 2015 meeting, the Commission directed that all Review Committees consider the informational report on aggregate data from the Curriculum Section of the Annual Survey in years when this data is available. At this meeting, the Orthodontics and Dentofacial Orthopedics RC reviewed the informational report on aggregate data from the Curriculum Section for the orthodontics and dentofacial orthopedics programs (residency and fellowship) conducted in August 2022. The Ortho RC noted that changes to the Curriculum Section of the Annual Survey were made a year ago and that the information collected is more useful and helpful with the revisions. The Review Committee also noted that data provided in the survey varies among programs.

Recommendation: This report is informational in nature and no action is required.
