CONSIDERATION OF MATTERS RELATED TO ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS EDUCATION

Informational Report on Frequency of Citings of Accreditation Standards for Advanced Dental Education Programs in Orthodontics and Dentofacial Orthopedics (p. 1100): The Review Committee on Orthodontics and Dentofacial Orthopedics Education (ORTHO RC) considered the annual report on the frequency of citings of Accreditation Standards for Advanced Dental Education Programs in Orthodontics and Dentofacial Orthopedics implemented January 1, 2014. The ORTHO RC noted that of the 71 site visits occurring January 1, 2014 through October 31, 2021, the following 10 Standards were each cited once: 1, Affiliations; 2-8; 3 (recognition/certification in basic life support procedures including cardiopulmonary resuscitation); 3 (documentation of compliance with the institution's policy and applicable regulations of local, state and federal agencies, including but not limited to radiation hygiene and protection, ionizing radiation, hazardous materials, and bloodborne and infectious diseases); 3-1; 3-2; 4-2a; 4-3.4i; 5a, Evaluation; and 5b, Evaluation. Standard 3-5 requires facilities to permit students/residents to work effectively with trained allied dental personnel and, with two (2) citings, is the most frequently cited. Due to the small number of citings (12 total), no further analysis can be made at this time.

Recommendation: This report is informational in nature and no action is required.
