

### **Winter 2013 Commission Actions**

The Commission firmly believes that conflict of interest or the appearance of a conflict of interest must be avoided in all situations in which accreditation recommendations or decisions are being made by Commissioners, Review Committee members, or members of the Appeal Board.

No Commissioner, Review Committee member, or member of the Appeal Board should participate in any way in accrediting decisions in which he or she has a financial or personal interest or, because of an institutional or program association, has divided loyalties and/or has a conflict of interest on the outcome of the decision. Areas of conflict of interest for Commissioners, Review Committee members and/or members of the Appeal Board include, but are not limited to:

- close professional or personal relationships or affiliation with the institution/program or key personnel in the institution/program which may create the appearance of a conflict;
- serving as a consultant to the institution/program;
- being a graduate of the institution/program;
- being a current employee or appointee of the institution/program;
- being a current student at the institution/program;
- having a family member who is employed by or affiliated with the institution;
- manifesting a professional or personal interest at odds with the institution or program;
- key personnel of the institution/program having graduated from the program of the Commissioner, Review Committee member, or member of the Appeal Board;
- having served on the program's visiting committee; and/or
- no longer a current employee of the institution or program but having been employed there within the past five (5) years.

To safeguard the objectivity of the Commission and Review Committees, conflict of interest determinations shall be made by the Chairperson of the Commission. If the Chairperson and Vice Chairperson, in consultation with a public member, staff and legal counsel, determine that a Commissioner or Review Committee member has a conflict of interest in connection with a particular program, the report for that program will not be provided to that individual, either in an advance mailing or at the time of the meeting. Further, the individual must leave the room when they have any of the above conflicts. In cases in which the existence of a conflict of interest is less obvious, it is the responsibility of any committee member who feels that a potential conflict of interest exists to absent himself/herself from the room during the discussion of the particular accreditation report.

To safeguard the objectivity of the Appeal Board, any member who has a conflict of interest in connection with a program filing an appeal must inform the Director of the Commission. The report for that program will not be provided to that individual, either in an advance mailing or at the time of the meeting, and the individual must leave the room when the program is being discussed.

Conflicts of interest for Commissioners, Review Committee members and members of the Appeal Board may also include being from the same state, but not the same program. The Commission is aware that being from the same state may not itself be a conflict; however, when residence within the same state is in addition to any of the items listed above, a conflict would exist.

This provision refers to the concept of conflict of interest in the context of accreditation decisions. The prohibitions and limitations are not intended to exclude participation and decision-making in other areas, such as policy development and standard setting.

Commissioners are expected to evaluate each accreditation action, policy decision or standard adoption for the overall good of the public. The American Dental Association (ADA) Constitution and Bylaws limits the involvement of the members of the ADA, the American Dental Education Association and the American Association of Dental Boards in areas beyond the organization that appointed them. Although Commissioners are appointed by designated communities of interest, their duty of loyalty is first and foremost to the Commission. A conflict of interest exists when a Commissioner holds appointment as an officer in another organization within the Commission's communities of interest. Therefore, a conflict of interest exists when a Commissioner or a Commissioner-designee provides simultaneous service to the Commission and an organization within the communities of interest. (Refer to Policy on Simultaneous Service)

Reaffirmed: 8/12; Revised: 8/10

**Predoctoral Consent**

## REPORT ON ACCREDITATION STATUS OF EDUCATIONAL PROGRAMS

Accreditation of Predoctoral Dental Educational Programs: In accord with the Commission's policy on conflict of interest, the following individuals were recused during the review of the predoctoral dental education programs, listed following their name: Dr. Cecile Feldman: Midwestern University, University of Kentucky and Boston University and UMDNJ; Dr. Sally Mauriello: Meharry Medical College; Dr. Marshall Titus: University of Washington (RIDE); and Dr. John Williams: University of Kentucky, Boston University, Meharry Medical College, and University of Washington (RIDE).

The Review Committee on Predoctoral Dental Education recommends adoption of the following resolution:

Resolved, that the Commission on Dental Accreditation approve the accreditation classifications for the following programs as listed:

to: approval without reporting requirements

**Report of Noncompliance**

**Memorial Sloan Kettering Cancer Center, New York, NY**

**maxillofacial  
prosthetics**

from: approval with reporting requirements (2/2014)

to: approval without reporting requirements

### **Conflicts of Interest**

The Commission firmly believes that conflict of interest or the appearance of a conflict of interest must be avoided in all situations in which accreditation recommendations or decisions are being made by Commissioners, Review Committee members, or members of the Appeal Board.

No Commissioner, Review Committee member, or member of the Appeal Board should participate in any way in accrediting decisions in which he or she has a financial or personal interest or, because of an institutional or program association, has divided loyalties and/or has a conflict of interest on the outcome of the decision. Areas of conflict of interest for Commissioners, Review Committee members and/or members of the Appeal Board include, but are not limited to:

- close professional or personal relationships or affiliation with the institution/program or key personnel in the institution/program which may create the appearance of a conflict;
- serving as a consultant to the institution/program;
- being a graduate of the institution/program;
- being a current employee or appointee of the institution/program;
- being a current student at the institution/program;
- having a family member who is employed by or affiliated with the institution;
- manifesting a professional or personal interest at odds with the institution or program;
- key personnel of the institution/program having graduated from the program of the Commissioner, Review Committee member, or member of the Appeal Board;
- having served on the program's visiting committee; and/or
- no longer a current employee of the institution or program but having been employed there within the past five (5) years.

To safeguard the objectivity of the Commission and Review Committees, conflict of interest determinations shall be made by the Chairperson of the Commission. If the Chairperson and Vice Chairperson, in consultation with a public member, staff and legal counsel, determine that a Commissioner or Review Committee member has a conflict of interest in connection with a particular program, the report for that program will not be provided to that individual, either in an advance mailing or at the time of the meeting. Further, the individual must leave the room when they have any of the above conflicts. In cases in which the existence of a conflict of interest is less obvious, it is the responsibility of any committee member who feels that a potential conflict of interest exists to absent himself/herself from the room during the discussion of the particular accreditation report.

To safeguard the objectivity of the Appeal Board, any member who has a conflict of interest in connection with a program filing an appeal must inform the Director of the Commission. The report for that program will not be provided to that individual, either in an advance mailing or at the time of the meeting, and the individual must leave the room when the program is being discussed.

Conflicts of interest for Commissioners, Review Committee members and members of the Appeal Board may also include being from the same state, but not the same program. The Commission is aware that being from the same state may not itself be a conflict; however, when residence within the same state is in addition to any of the items listed above, a conflict would exist.

This provision refers to the concept of conflict of interest in the context of accreditation decisions. The prohibitions and limitations are not intended to exclude participation and decision-making in other areas, such as policy development and standard setting.

Commissioners are expected to evaluate each accreditation action, policy decision or standard adoption for the overall good of the public. The American Dental Association (ADA) Constitution and Bylaws limits the involvement of the members of the ADA, the American Dental Education Association and the American Association of Dental Boards in areas beyond the organization that appointed them. Although Commissioners are appointed by designated communities of interest, their duty of loyalty is first and foremost to the Commission. A conflict of interest exists when a Commissioner holds appointment as an officer in another organization within the Commission's communities of interest. Therefore, a conflict of interest exists when a Commissioner or a Commissioner-designee provides simultaneous service to the Commission and an organization within the communities of interest. (Refer to Policy on Simultaneous Service)

Reaffirmed: 8/12; Revised: 8/10
